PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in **SQL, Microsoft Excel, Power BI, Tableau, Power Query, DAX, data cleaning, data transformation, data modeling, dashboard development, and data visualization**. Built interactive business dashboards to analyze sales and e-commerce performance, track KPIs, and convert raw data into actionable business insights. Seeking an entry-level Data Analyst opportunity.

TECHNICAL SKILLS

SQL: SQL query writing, data analysis, filtering, aggregation, business reporting

Microsoft Excel: Pivot Tables, Pivot Charts, Slicers, data analysis, dashboard development

Power BI: DAX, Power Query, data modeling, dashboard development, KPI tracking, data visualization

Tableau: Dashboard development, data visualization, business reporting

Google Sheets: Data analysis, reporting, spreadsheet-based analysis

Data & Analytics: Data cleaning, data transformation, data visualization, data modeling, reporting, business insights

Core Competencies: Data Analysis, SQL Query Writing, Business Reporting, Problem Solving, Analytical Thinking, Dashboard Development

PROJECTS

Bank Analytics Dashboard | Power BI GitHub

Tools: Power BI, Power Query, DAX, Data Modeling, Data Visualization

- Built an executive Power BI dashboard to analyze 5.37K customers, 4.50K accounts, 253K transactions, and 103.26M CZK in loan exposure.
- Prepared and transformed relational banking data, established table relationships, and created analytical measures and KPIs.
- Analyzed customer demographics, account activity, card distribution, banking performance trends, and loan status.
- Identified key business insights including rising active accounts, 92.6% Silver-card concentration, and loan-risk exposure for management monitoring.

E-Commerce Sales Analytics Dashboard | Power BI

Tools: Power BI, Power Query, DAX, Data Modeling, Data Visualization

- Built an interactive Power BI dashboard to track key e-commerce KPIs including Revenue, Orders, Average Order Value (AOV), and Cancellation Rate..
- Used Power Query for data preparation and transformation, including cleaning and shaping raw data for analysis.
- Applied DAX to create analytical measures and support KPI-based business reporting.
- Designed a structured data model and interactive visualizations to identify performance trends and generate actionable business insights.

Coffee Sales Analytics Dashboard | Microsoft Excel GitHub

Tools: Microsoft Excel, Pivot Tables, Pivot Charts, Slicers, Data Visualization

- Built an interactive Excel dashboard using Pivot Tables, Pivot Charts, and Slicers for dynamic sales analysis.
- Analyzed coffee sales performance by product, customer, and country to identify sales patterns and business trends.
- Converted transactional sales data into interactive reports that support performance monitoring and business decision-making.

KEY COMPETENCIES

Data Analysis | Data Visualization | SQL Query Writing | Business Reporting | Problem Solving | Analytical Thinking

EDUCATION

B.Sc. | Chhatrapati Shahu Ji Maharaj University, Kanpur 2022 - 2025
